

POCKETSMART AI

Brainstorming & Idea Prioritization

- Project: PocketSmart AI – Smart Budget & Recommendation Assistant
- Core idea: help users record expenses, understand spending patterns, set budgets, and receive personalized suggestions.
- Problem areas: scattered expense records, low visibility into spending, difficulty planning budgets, and generic financial advice.
- Prioritized concepts: expense tracking; category-wise summaries; budget alerts; AI-generated spending insights; recommendation assistant.
- MVP focus: simple expense entry, dashboard summaries, budget tracking, and an AI recommendation interface.
