

# POCKETSMART AI

## Project Executable Files

- Submission package should include source code, dependency manifests, configuration example, and README/setup guide.
- Include required assets and database migration/seed instructions if applicable.
- Do not include real API keys, passwords, private financial data, or unnecessary build caches.
- Document exact commands for installation, environment setup, starting the app, and running tests.
- Attach screenshots or a demo recording separately if required by the institution.
