

POCKETSMART AI

Project Demo Planning

- Before demo: verify dependencies, environment configuration, database availability, and AI API connectivity.
- Prepare fictional sample transactions and a short fallback recording/screenshots.
- Suggested flow: problem (1 min), architecture (1 min), live workflow (3–4 min), testing and future scope (1–2 min).
- Check screen resolution, browser zoom, audio, and internet connection.
- Do not display secrets, personal data, or real account credentials.
