

POCKETSMART AI

Scalability & Future Plan

- Potential enhancements: receipt OCR, recurring expense detection, exportable reports, and multi-currency support.
- Scale data storage with indexing, pagination, and appropriate access controls as usage grows.
- Improve AI quality with structured prompts, grounded summaries, validation, and clear uncertainty messaging.
- Add monitoring for errors and latency while minimizing collection of personal financial data.
- Prioritize future work based on user feedback, feasibility, cost, and privacy.
